Surrette Battery Launches Additional 2V Batteries

2V S-1590 & 2V S-1725 Models Announced

Surrette Battery, manufacturer of the Rolls Battery line of leading North American lead-acid batteries, has introduced two (2) higher capacity 2V battery models to our Renewable Energy line-up.

The **S-1590** & **S-1725** models add to our growing list of L-16 style batteries, featuring a convenient four (4) post configuration (two (2) posts per terminal), used to support the potential loads of a 1200 & 1300 AH cell (20 hr rate). Both models feature a single vent to maintain and a single threaded take-off.

The new **S-1590** and **S-1725** models are currently in production and are now available to consumers through Rolls Battery dealers and distributors.

S-1590 Specifications:

2-Volt (1 cell)

Model: S-1590

Dimensions: 13 1/8" x 7 1/8" x 17"

Weight: 121 Lbs/55 Kg

Capacity: 1596 AH 100 HR

1200 AH 20 HR

S-1725 Specifications:

2-Volt (1 cell)

Model: S-1750

Dimensions: 13 1/8" x 7 1/8" x 17"

Weight: 125 Lbs/57 Kg

Capacity: 1729 AH 100 HR

1300 AH 20 HR
